Undefined								
Title	Locations	Date	From Time	End Time	Num of registered	Available	Deadline	Registration
Test event	Undefined	17-07-2014	09:00:00	13:00:00	0/10	10	17-07-2014	Register

I created a test event in Administration and associated it to this course.

In the students area I have “Reservation module”. In the permissions, I set that the users can see and register while the teachers can also manage the event. There are 10 places, until now nobody registered. As a Teacher I can also see the “manage event” tab.

Reservation

Title	Locations	Date	From Time	End Time	Num of registered	Available	Deadline	Registration
Test event	Undefined	17-07-2014	09:00:00	13:00:00	0/10	10	17-07-2014	Register

Here’s what a user sees.

Reservation

Title	Locations	Date	From Time	End Time	Num of registered	Available	Deadline	Registration
Test event	Undefined	17-07-2014	09:00:00	13:00:00	1/10	9	17-07-2014	Cancel Registration

Now I registered.

And here is what a Teacher can now manage
